Marketing: Logo Creation

You want your company to stand out and be completely unique, and that is easily accomplished by having a customized Logo created just for your company! Branding yourself and your company with a customized Logo is the first step into building a recognizable company or brand!

What All Do You Do?

We provide you with a customized logo based upon your requests that can include colors, objects, themes, and a few more topics that we inquire in order to design the ultimate logo for your company!

How Many Revisions?

We offer a total of 3 revisions in order to ensure your Logo is 100% perfect. We choose to provide you with 3 revisions as we have to limit the workload of our logo designers to ensure that they can do the best job possible and effectively.

What Software Packages Do You Use?

Typically, we utilize a software program called Gimp. This is the free open-source software that is just like Adobe Photoshop.

What Happens If I Am Not Satisfied?

We provide you with 3 different Revisions. If all 3 revisions are used, and slight alterations to the logo based upon your input is similar in comparison, we provide you with a refund. If you have requested different types of revisions, completely changing everything, then there will be no refund.
